## Aging Gracefully Philosophy

The quality of life our residents enjoy is at the core of our mission. Research shows that activity, both physical and mental, can improve the overall quality of life. Our goal is to create a whole person wellness attitude and change how we think and act in relation to our residents. "Aging Gracefully" is not a "program," but rather the embodiment of an attitude about the quality of life we provide our residents. It is the platform upon which family members and staff alike participate to present those attributes that will allow the residents to rediscover the joy available in life.

## Living Gracefully Culture

**"Living Gracefully,"** Grace Management, Inc.'s Health & Wellness Program offers our associates the opportunity to participate in programs designed to enhance organizational health plans by fostering interest and encourage healthy lifestyles.

**"Living Gracefully"** offers diverse wellness programs designed to meet a wide range of personal health needs. Associates set their own individual goals. Once goals are met, or exceeded, associates are recognized and often rewarded. Employees participating in the **"Living Gracefully"** program lead healthier, more active lifestyles, decreased absenteeism due to illness or stress and a positive "re-energized" culture that is focused on celebrating healthy choices and improving the quality of life for all of our associates.

## The Village Program

**REFLECT** . . . on memories and past accomplishments

**REJOICE** . . . in the success experienced each day

**RENEW** . . . hopes and spirits every day

Developed by Grace Management, Inc., **The Village Program** is a specialized Life Enrichment Program designed to create an environment of success through meaningful and enriching activities for individuals experiencing memory loss typically not associated with the normal aging process.

By promoting a more active lifestyle, our residents experience a greater quality of life. The Village Program is designed to build on the relationships between caregivers and residents in our specialized memory care neighborhoods. There is a great focus on smaller group activities or one-on-one activities designed to engage residents through the entire day.

- Activities may include:
- Sensory Stimulation
- Hand Massages
- Book Clubs & Readings
- Art & Music Therapy
- Tea Socials
- Reminiscing
- Life Skills Activities
- Physical Fitness/Exercise Programs
